

## **Project Cargo Services**

We have a core expertise in handling Project Cargoes, Heavy Lift, Over Dimensional Cargoes and Break-bulk cargoes. We take up ocean freight, land freight or complete door to door movement as the case maybe for such cargoes both Inbound & Outbound. We have also chartered & operated heavy lift ships together with foreign principals.

Our SLAs are absolutely clear with client responsibilities & liabilities precisely laid out leaving no grey areas of confusion as happens in several cases of the complex movements of such type of cargoes. We have a very good reference from all our clients who have utilized these services.

### **Project Cargoes / Heavy Lifts Handled:**

- Hydraulic presses – weighing up to 150 MT single unit
- Mechanical presses – weighing up to 70 MT single unit
- Precision machinery – weighing up to 70 MT single unit
- Pressure tanks – weighing up to 100 MT single unit
- Wind mill blades, fiber molds, gearboxes & hubs
- Loco-tractors (locomotives that can run on rail & road both)
- Steel cargoes
- Transformers
